

Eden Hall Campus

Chatham University

**1 Woodland Road
Pittsburgh, PA 15232**

"Eden Hall Campus will be the first in the world built from the ground up for the study of sustainable living, learning, and development. Using the latest in environmentally responsible technology, design and innovation, Eden Hall will be self-sustaining in every way by producing zero carbon emissions and more energy than it consumes."

Eden hall will be the first campus in North America to apply for SITES certification through the Sustainable Sites Initiative. The project includes:

- **Planting 704 new trees**
- **26,151 square feet of rain gardens**
- **7,074 square feet of bioretention areas**
- **41,983 square feet of permeable paving (57% of all new paving surfaces will be permeable)**
