

Volant Community Park Master Plan

Township of Volant

**State Route 208,
Volant, PA 16156**

In 2008, Eisler Landscapes along with Richard P. Rauso, RLA, was asked to create a Master Plan for the community park in Volant, PA. to create a sustainable industrial park and working farm. The proposed park encompasses approx. 6.4 acres and offers the potential for green space for recreation and outdoor activities (fishing, canoeing, hiking, etc.), open space for events and relaxation, riparian zone and habitat restoration as well as agricultural restoration. Plans also incorporate a working mill, retail store, art gallery and studios, community barn, blacksmith shop, community and children's gardens, demonstration buildings, and pedestrian walking trails. This project is currently awaiting funding for construction.
