

Through the use of outdoor rooms we can help you to create outdoor spaces that truly suit your needs. Whether you need spaces to relax or spaces to play, we will work with you to create that special space for each member of your family. We have experience building outdoor structures from pool houses to arbors, fireplaces to kitchens.

We look forward to discussing how Eisler Landscapes can meet your unique needs and challenges and make your dreams a reality. Contact us to schedule your consultation today!

Eisler's Understands...

Whether your home is old or new, Eisler Landscapes can provide site design and construction services to create the sophisticated curb appeal or the serene backyard oasis you have been dreaming about. We understand how important the design process is to our clients, and

we are prepared to guide you from concept design to the creation of a master plan and finally, construction. We understand that big projects like yours can feel overwhelming, but the Eisler's team will be with you from start to finish to make sure that your project runs smoothly.

Eisler's understands the Western Pennsylvania landscape. We see the challenging terrain as an opportunity to create gardens with levels, interesting pathways and surprises around every corner. The design featured here includes a two story pool house with a half bath and full kitchen, laundry, changing room, and storage room. Outdoor features include an open air kitchen, a brick fireplace, arbor, fire pit, and a pool. A 35' meandering waterfall wraps around a spa, overlooking the pool with a small pond at the bottom. Landscape plantings and lighting were used to tie all the spaces together.
